

Arslan Latif

Backend Developer

I am a **Senior Backend Developer** with over 4 years of experience in building and optimizing **PHP** and **Laravel**-based systems. My expertise lies in designing scalable backend architectures, improving system performance, and creating efficient **APIs** to power dynamic applications. I have extensive experience in developing web applications using **PHP** and the **Laravel** framework, as well as integrating third-party services to enhance functionality.

Core Competencies:

- **Laravel Development:** Proficient in **Laravel**, from building robust applications to utilizing its powerful ORM, Eloquent, for efficient database management.
- **API Development:** Designing and implementing **RESTful APIs** using **Laravel** to connect services and enhance system communication.
- **Database Optimization:** Expertise in **MySQL** schema design, query optimization, and implementing efficient relationships between tables.
- **Cloud Integration:** Experience deploying and managing **Laravel** applications on **AWS**, **Azure**, and **Google Cloud** to ensure high availability and scalability.

Technical Skills:

- **Programming Languages:** **PHP** (Core, **Laravel**), **Node.js**, **JavaScript**.
- **Frameworks:** Expert in **Laravel** and proficient in **Express.js**.
- **Databases:** Strong knowledge of **MySQL**, **PostgreSQL**, **MongoDB**, and database performance tuning.
- **DevOps Practices:** Experience with **CI/CD** pipelines,

SKILLS

Leadership - Expert
Project Management - Expert
Problem Solving - Expert
Communication - Expert

Languages

English - Fluent

Hands on Experience

Backend : php, laravel, nodejs, Go

Frontend: React, html, css

Databases: Mysql, mongodb, postgres, fluxdb

Devops: Aws, GCP, Azure ,Linux, EC2, Nginx, VPS server deployment and management

Docker, and deploying PHP applications on **Linux-based servers**.

EXPERIENCE

Full stack Developer *Jul, 2023 - Jul, 2024*

Bluell PVT LTD

Islamabad

Developing and maintaining web applications backend using Laravel, php, MongoDB, Express.js and Node.js, ensuring integration and functionality across all layers of the stack.

Backend Developer *Aug, 2021 - Jun, 2023*

ESPSTACK PVT LTD

Islamabad

Specialising in database Schema, relationships and apis. Enhanced system performance and scalability by optimising database queries and refining backend architectures.

Web Developer *May, 2020 - Jan, 2021*

Web Soul PVT LTD

Islamabad

Worked on developing and maintaining responsive web interfaces, ensuring seamless user experiences and integrating backend services for web applications.

EDUCATION

Software Engineering *Oct, 2015 - Oct, 2019*

University of Poonch

Rawalakot AJK

Developed a strong foundation in software engineering principles, gaining comprehensive knowledge in software development, system design, and project management. This education provided me with the skills to excel in various domains, including mobile app development, web development, and IoT solutions.
